

About CRY

CRY – Child Rights and You is an Indian organisation working to ensure Indian children their **Rights to Survival, Protection, Development and Participation**. At CRY we believe that Child Rights are indivisible from Human Rights and therefore, in order to make a permanent change in the lives of those millions of disadvantaged Indian children, we address larger issues that affect them-**the children**, their parents, families and communities.

Over the last 38 years CRY has changed the lives of more than 2 million children by supporting more than 300 grassroots initiatives in over 13,000 communities in villages and slums across 23 states in India.

We are thankful to BUDLI for all the support we received from them during the past year. With the support of the contribution received from Budli and other supporters we have been able to touch following in our efforts to restore rights of underprivileged children in South India.
